

## From the Co-Editors

It has been a pleasure for us to take up the helm of editing the *MIDTESOL Journal* with the assistance of our reviewers from around the MIDTESOL region. We would like to give a big thank you especially to the following MIDTESOL members who have helped us deliver this volume.

- Vicky Anderson, Communication Director
- Amy Quirin, Associate Editor
- Melissa Lowery, Web Editor

Volume 5 includes two feature articles: one article is focused on *Language Assessment Literacy*, a growing topic of interest in second language assessment, and the other is on how Writelogue can improve university students' noun phrases. The volume also includes two *Language Teaching Professionals' Interest* articles on the effective use of QR Codes in the classroom and on creating HyperDocs for refugee non-profit organization's English tutoring program.

We hope you enjoy this edition!
