Is your state underrepresented here? Feel free to write an article or volunteer to be a reviewer next year!

Volume 7 includes two *Feature Articles*: one article is focused on co-teaching middle school English learners and the other is on teaching Muslim women in a community-based setting. This volume also includes three *Language Teaching Professionals' Interest* articles on the following topics: implementing evidence-centered design for developing an oral communication test, grammar instruction, and vocabulary acquisition through pop quizzes.

We hope you enjoy this edition!
